

What makes America Great

I think America is great because we have freedom of speech so if someone asks me who my friend is I don't have to tell them. America has the right to celebrate whenever they want even if it is not a holiday or a birthday.

I also like that you can vote because you can make your own decisions like my mom can vote for Trump if she wants to but if she doesn't that's ok. America is great because it doesn't matter what the color your skin is or what language you speak so anyone can get a good job and nice things.

America is also great because we are allowed to follow Jesus so I can pray whenever I want to. America is great because if we do something wrong we don't always have to die. In some places people don't get to go to school especially girls but we get free education .

We also have a good military so America can be great and safe. There are so many things that make America great I am proud to be an American. America is great because you can pick who you want to be President and pick who you want to be your friend and what your dog is going to look like and you can pick what your car is going to look like or how you are going to act and who you are going to marry.
